Exempted

PROFESSIONAL SUMMARY

DevOps Engineer with 2+ years of production experience managing multi-cloud infrastructure, designing CI/CD pipelines, and implementing Infrastructure as Code. Skilled in Kubernetes, Docker, Jenkins, and Terraform with a focus on automation and operational excellence.

EXPERIENCE

06/2025 – 07/2026

DevOps Engineer

Twello

- Deployed monitoring stack (PLG) for apps and machines logs/metrics.
- Created GitHub Actions CI/CD pipelines for faster developing and deploying.
- Troubleshoot and maintained Kubernetes (K3s), Docker, Nginx, and AWS infrastructure.
- Implemented SSL/TLS and reverse proxy solutions using Ingress (traefik), Caddy, Nginx and Let's Encrypt.
- Diagnosed and fixed centralized logging issues using Promtail and Loki.
- Secured AWS CloudFront and S3 integrations by improving bucket policies and access controls.
- Built Terraform IAC to provision Kafka and Elastic-Search clusters when needed.
- Managed Kafka bootstrap Servers and Kafka proxy.
- Automated Elastic-Search snapshots on S3 bucket.
- Deployed Kibana for Elastic-Search queries and dashboards visualization.
- Worked on GCP and AWS to manage resources like EC2, VPC, VPN tunnels, RDS, CloudWatch and SQS.
- FinOps solutions to save money on cloud.

01/2025 – 07/2025

Software Developer | DevOps Engineer

Alriwaq Alarabi

- Customized ERPNext to match business workflows through GUI changes and client/server scripts.
- Supported departments by aligning ERP features with operational needs.
- Handled daily IT support tasks, acting as the main help desk contact

12/2023 – 09/2024

AI Data Annotator

Rembrand

- Filtered and labeled visual content (images, videos, and reels) based on specific guidelines to train and improve AI models. Classified model outputs to support continuous learning and refinement of AI systems.
- Reviewed AI-generated outputs, corrected inaccuracies, and re-submitted data to enhance model learning and accuracy.

06/2024 – 07/2024

DevOps Engineer (Intern)

IT-Visionary

- Participated in solving various DevOps using {AWS, Terraform, Docker, Jenkins, Git} and RPA using {UiPath studio, UiPath orchestration} tasks.

08/2020 – 10/2020

Machine Learning Engineer (Intern)

BasharSoft-Wuzzuf/Forasna

- I worked on enhancing the search bar feature by collecting data from Database by using python libraries {pandas, NumPy, matplotlib} and making some analysis on and printing a lot of graphs to see intensity of specific searches.

EDUCATION

09/2024 – 10/2024

DevOps Internship Program

Digital-Hub with Orange Digital Center (ODC)

- Worked on a lot of docker labs and docker compose projects.
- Understand the service types, service account and cluster role in Kubernetes.
- Worked on Three Tier Application Kubernetes project.
- Know the definition of ArgoCD and apply it on small deployment.

02/2024 – 05/2024

DevOps and Automation

National Telecommunication Institute (NTI)

- Understand the fundamentals of Linux operating system.
- Work in Agile and DevOps Mindset.
- Deploy and manage micro services using Docker containers.
- Orchestrate many containers using Kubernetes.
- Implement and manage platforms on cloud by developing Infrastructure as Code (IaC) using Terraform.
- Build and develop CI/CD pipeline using Jenkins.

09/2017 – 08/2022

BS in computer science

Cairo University

- Graduation Project – E-commerce website with small AI bot for helping users, technologies used {React, NodeJS, Watson (IBM)}.

SKILLS AND TECHNOLOGIES

Automation

Jenkins, Github Actions

IAC

Terraform

Containerization

Docker, Docker Compose, Kubernetes

Configuration Management

Ansible

Monitoring

Grafana, Prometheus, Loki.

Cloud Platform

AWS

Scripting

Python, Bash

Networks

CCNA

Concepts

OOP, Algorithms, Data Structures, Agile Methodology.

Overview

ArgoCD, GCP, SonarQube, ERPNext, Kafka, ElasticSearch.

CERTIFICATES

• NTI DevOps and Automation

• AWS Cloud Practitioner

• NTI CCNA

SOFT SKILLS

Problem-solving — Strong problem-solving and analytical skills.

Teamwork — Good teamwork member.

Learning — Fast learner with a strong dedication to continuous learning and professional development.
